Made with Freepik—real work, real results

How to place your product in multiple backgrounds
Use your product as a custom object and place it into different backgrounds in a few clicks. Great for scaling content quickly.

Why choose Freepik?

The all-in-one suite for creatives

Power your creativity with leading GenAI models, pro features, and a vast stock library—all in one platform.

AI you can trust: private and secure

Your data is never used to train AI—ours or third-party. You're fully protected with advanced security and full rights.

Easy to use, with professional results

Stay consistent, adapt assets easily, and create confidently with powerful tools built for real workflows like yours.

Join the creators shaping AI's future

Be part of a global community of top creatives. Get early access to new tools, share your work, and stay inspired.

- ✓ Unlimited users, flexible credits
- ✓ Freepik Studios: custom, high-impact AI content

Frequently asked questions

Is my content private and secure? Does Freepik use my inputs or outputs to train its models?

How do credits work, and how many generations do I get per tool?

Can I use AI-generated content commercially, and do I own the rights to it?

Do I need to attribute to use Freepik stock content?

Do you offer legal indemnification for AI and stock content?
